2010 Calendar of Seminars

Autonomic Response Testing II

April 30-May 3 in NYC, taught by Dr. Klinghardt

ART I introduced ways of diagnosing and treating the extra-cellular space: the ground system. In ART II we will introduce sound methods to diagnose and treat the intracellular environment. Learn how to use muscle testing to detect chronic viral, fungal, mycoplasmal infections, Lyme disease and other microorganisms. You will also learn treatment protocols for cancer, chronic fatigue, MS, FMS and other chronic diseases. Learn to use ART to select the most appropriate and best tolerated medication – including diagnostic and therapeutic protocols for toxic metals and xenobiotics. **Cost: \$650.**

Attend even if you have taken ART II before. Much is new, giving deeper and more accurate results.

Price: \$550 before April 20, 2010. After that, the price goes up to \$650. Repeater discount: \$100. Student price: \$425.

Holiday Inn, West 57th St. between 9th and 10th Avenue. Fri 1-9PM, Sat 9-9 PM, Sun 8:30-1 PM

Sign up for ART I, ART II and ART III in 2010 for \$1100. If you missed ART I, get a full set of ART I DVDs instead.

Special Monday Class following ART II in NYC

In a special day, Monday, May 3, you will deeply learn how to use ART II with Dr. Klinghardt's protocols for Lyme Disease and other chronic infections as the underlying cause of chronic illness. He will introduce sound methods to diagnose and treat the intracellular environment. Learn how to use muscle testing to detect chronic viral, fungal, mycoplasmal infections, Lyme disease and other microorganisms. You will also learn treatment protocols for cancer, chronic fatigue, MS, FMS and other chronic diseases. Learn to use ART to select the most appropriate and best tolerated medication – including diagnostic and therapeutic protocols for toxic metals and xenobiotics.

Price for the one-day workshop: \$200. Price for the entire four days: \$700 before March 15, 2010; \$800 afterwards. **Sign up for ART I, ART II and ART III in 2010: Monday class price is \$125.**

Autonomic Response Testing I DVDs

Learn to use muscle testing to diagnose food allergies, geopathic stress, biophysical stress and interference fields. Find and prioritize stressed organs and structures, emotional blocks, heavy metal toxicity and dental problems. Understand the seven factors of illness. Find the underlying cause of chronic illnesses. Learn how to prioritize treatment protocols for chronic or acute illness..

ART is different from other forms of muscle testing in that it uses the latest findings of quantum and biophotonic physics to aid in the assessment of the body. This allows for a much deeper level of testing not available before to traditional kinesiologists. Tools such as a polarization filter and signal enhancers are used to get stronger, clearer feedback from the body. ART often finds things that are missed with traditional kinesiology. ART practitioners in general also have the ability to test for a wider variety of root causes of illness, including specific infections, toxins, and emotional disturbances. ART is used along with traditional tests to determine the root causes of illness. It is not used to diagnose diseases. ART has been shown to be the most accurate of all kinesiology techniques, with the best reproducibility and inter-examiner reliability.

DVD Price: \$300. Sign up for ART I, ART II and ART III in New York in 2010 for \$1100.

Autonomic Response Testing III

January 28-30, 2011, taught by Dr. Klinghardt

Dr. Klinghardt will reveal advanced techniques in bio-energetic testing using techniques that have been developed over the last four years at his private clinic and at his research Institute in Germany. The focus of this training is on full sessions with patients, the biophoton field and the detection of perturbances in the field, their meaning and the most effective and least invasive ways to correct them.

The seminar will include the application of autonomic response testing (ART) in anti-aging medicine (biological hormonal and metabolic balancing), dentistry and orthopedics. Learn the most accurate diagnostic procedures for the jaw and teeth, and the latest advances in treating Lyme disease. Dr. Klinghardt will also venture into the more mystical areas of healing and teach how to successfully address deep-seated psychological and spiritual problems. **Cost: \$695**

Experienced Practitioner's Week-Long Retreat

August 22-28, 2010, Whidbey Island, WA

Dietrich Klinghardt, MD, PH.D.

This 6-day retreat is a time to experience and get a deeper understanding of Dr. Klinghardt's holistic method of true psycho-somatic medicine: the "5 Levels of Healing". In this workshop we will address all 5 levels. Neural therapy, Applied Psycho-Neurobiology, Heavy Metal Detoxification and Treatment of Chronic Infections will be included. **This week-long retreat is limited to seasoned students of Dr. Klinghardt.**

Physical level: ART evaluation of the "7 factors", ART II direct resonance and ART III testing on three levels, yin and yang states. Lectures on the appropriate use and interpretation of meaningful lab work and imaging techniques, dentistry, heavy metal detoxification, Lyme disease, true spirituality, energy body illnesses, and others. Electro-Magnetic level: Neural Therapy demonstrations, geopathic and biophysical stress management, and more. Mental level: APN, mental field therapy (we'll have sessions clearing out old trauma and unresolved psycho-emotional conflicts), journaling, color therapy, co-counseling. 4th level: Family constellation work and APN II.

Tuition fee is \$1,500. This includes all presentations and course materials. Accommodations and meals not included in this price but are provided at Whidbey Institute.. A \$300 deposit holds your place. If there are any spaces left after April 15th, the tuition fee goes up to \$1650.

Neural Therapy 1: Feb. 6-7, 2010
Neural Therapy 2: April 17-18, 2010
Neural Therapy 3: June 12-13, 2010

Taught by Jeff Harris, ND

Learn how Neural Therapy works, the history, theories and practical applications. Learn how to take patient histories in the neural therapy style. Learn treatments for pain, allergies, headaches, asthma, and more. Practicum with supervision for: Scar Treatments, Segmental therapy, Trigger point therapy.

Dr. Klinghardt says of Jeff Harris, ND: "Dr. Harris is one of the best neural therapists in the world." Dr. Harris trains neural therapists all over the country and teaches neural therapy at Bastyr College.

Neural Therapy 2

Neural Therapy 2 trains the practitioner in more advanced injections that are used to regulate the autonomic nervous system and bring about healing. While NT 1 dealt with the nerve endings in the skin, NT 2 goes to the deeper interferences in the ANS. In NT 2 you learn the most common and easier of the Neural therapy deeper injections. **You may attend Neural Therapy 2 even if you did not attend Neural Therapy 1.**

Neural Therapy 3

Neural Therapy 3 is for those who have completed levels 1 and 2 and want to advance their technique and expertise. This training includes injections that have to do with interference fields of the head, sinuses, sacrum and hip. There is a recent advance in the pelvic injection that is taught along with injections to support dental treatment. ART techniques will be integrated into the training including yin and yang supplement testing and the use of the laser to treat the Biofield.

9:00 AM to 5:00 PM Saturday; 9:00 AM to 1:00 PM Sunday Bastyr University Campus, Room #78, class size is limited to 30.

Cost: \$450 early discount. A month before the seminar the price increases by \$100. Student price: \$350. A month before the seminar, the price increases by \$100.

Advanced Energy Psychology Techniques (APN II)
Date to be Announced

Chronic health problems are often misunderstood. Clients frequently fail to respond to reasonable healing interventions because of a simple truth: the unsuccessful treatments were directed at the symptom, not the cause. The true entry point or impact of the illness-causing energetics occurs in a higher dimension and trickles down to the emotional or physical realm.

In this exciting and practical workshop we will explore the most frequent hidden causes of chronic illness: 1. unresolved transgenerational ancestral trauma in the client's family, 2. pain and conflict carried over from a past life, 3. the effect deceased family members and friends can have on our health. During this weekend you will learn three simple, practical and yet powerful tools to diagnose and treat on the "4th level": Genogram development and its practical application; Bert Hellinger's systemic psychology and constellation work; Dr. Klinghardt's psychokinesiology and brief healing visualizations

By applying these simple methods magical healing is often possible where conventional and alternative methods have failed. We will explore specifics in the treatment of developmental childhood disorders (autism, seizures, dyslexia etc), cancer, chronic fatigue, MCS and chronic pain. There will be many demonstrations, time for hands-on practice and presentation of case studies. **Dietrich Klinghardt, MD, Ph.D. Cost: \$595**

Cancer Strategies:
Improving Outcomes and Quality of Life
December 3-5, 2010

Dietrich Klinghardt, MD, PhD & Invited Faculty

In this conference, we will illuminate the cutting edge in cancer treatments that work on all five levels. Our speakers will share their insight into what is working intelligently and successfully with the least harm to the body, and nourishing to the soul and psyche. Emerging research, external contributing causes, such as chemicals, heavy metals, hidden infections, psychological and other stressors, lifestyle factors including diet and exercise, inflammatory markers, immune system enhancement and more will all be explored.

Participants will take away new ideas in how to work with cancer, cancer prevention, new thoughts and ideas, a sense of hope for those who have cancer, the importance of exploring all five levels and more. Our Faculty: Dietrich Klinghardt, MD, PhD, Donald J. Yance, CN, MH (AHG), Dwight McKee, MD, Robert Zieve, MD, Gilbert Renaud and many more speakers including European energy medicine practices.

Hyatt Regency Bellevue, Seattle area

Conference fee: \$675. Register in full before October 15: \$575 Student Fee: \$425. More than one person from the same office: \$100 discount per subsequent person.

DVDs Now Available for Healing the Brain 2010
held February 19-22, 2010

Dietrich Klinghardt, MD PhD & Invited Faculty:

- Neurologist and Author Eric Braverman, MD
- Daniel Amen practitioner Brian Goldman, MD
- Master Herbalist Donald J. Yance
- Lab Analysis Expert Mark Schauss
- Australian Brain Integration Expert Charles Krebs
- Coagulation Expert David Berg
- MAPS (system to repair brain dysfunction) creator Claudie Gordon-Pomares
- Pituitary Dysfunction Expert Dan Purser, MD
- Charles Gant, MD, National Integrated Health Associates
- Bruce Shelton, MD, MD(H)
- Listening Program Inventor Alex Doman
- Color and Light Therapy Expert Alice Nixon, LCSW
- Kurt Mosetter, MD, German developer of Myoreflex therapy

What you will learn is practice-changing and life-changing and may be put into effect immediately.

Is our brain in danger? What is the evidence? What can we do?

This seminar explores the hidden causes of brain dysfunction and illness in both children and adults and also carefully discuss available diagnostic and treatment options. Practitioners will come away with a synthesis of new ideas and new, cutting-edge protocols to put into their practice right away. **RETAIL PRICE: \$300**
