

# Neural Therapy 2 & 3

## Injection Therapies for Healing

**NT2: April 17-18, 2010**

**NT3: June 12-13, 2010**

**Taught by Jeff Harris, ND**

**Sponsored by Klinghardt Academy of Neurobiology**

*Dietrich Klinghardt, MD, PhD says of Jeff Harris, ND:  
“Dr. Harris is one of the best neural therapists in the world.”*

### Neural Therapy 2

**Neural Therapy 2** trains the practitioner in more advanced injections that are used to regulate the autonomic nervous system and bring about healing. While NT 1 dealt with the nerve endings in the skin, NT 2 goes to the deeper interferences in the ANS. In NT 2 you learn the most common and easier of the Neural therapy deeper injections. The practitioner of Neural Therapy will find the injections taught in NT 2 are ones that can bring healing and relief to a large variety of patients with myriad afflictions because they treat areas where the general population frequently has interference fields. The injections taught in NT 2 are used multiple times a day with good success. The participant will also be trained in a simple form of ART as it relates directly to Neural Therapy practice. Completion of Neural Therapy 1 is required to take this training.

### Neural Therapy 3

**Neural Therapy 3** is for those who have completed levels 1 and 2 and want to advance their technique and expertise. This training includes injections that have to do with interference fields of the head, sinuses, sacrum and hip. There is a recent advance in the pelvic injection that is taught along with injections to support dental treatment. ART techniques will be integrated into the training including yin and yang supplement testing and the use of the laser to treat the Biofield.

**When: April 17-18, 2010 and June 12-13, 2010**

**9:00 AM to 5:00 PM Saturday; 9:00 AM to 1:00 PM Sunday**

**Where: Bastyr University Campus, Room #78, class size is limited to 30.**

**Cost: \$450 early discount. For NT2, after March 4<sup>th</sup> add \$100. For NT3, after May 6<sup>th</sup> add \$100  
\$350 Student discount for NT 2 prior to March 4<sup>th</sup> then add \$100. For NT3 the deadline is May 6<sup>th</sup>**

**Neural Therapy 2: April 17-18, 2010, taught by Jeff Harris, ND:  
Beginning deeper injections and beginning ART integration.**

**Neural Therapy 3: June 12-13, 2010, taught by Jeff Harris, ND:  
ART integration and Advanced injections**

Dr Harris has specialized in Neural Therapy for 16 years. He is a naturopathic physician, in private practice in the Green Lake area of Seattle. He trains neural therapists all over the country and teaches neural therapy at Bastyr College in Seattle. Visit his website at [www.jeffharrisnd.com](http://www.jeffharrisnd.com).
